

Model 135 ID Exit Panel

Part # A05280901

Description

The ID Exit Panel is two systems in one. It can operate as a Magnetic Lock Control system, which allows for normal traffic flow and should lock only when a transmitter approaches the door. It is also able to perform a variety of Perimeter Alarm and Access Control functions by locking a door during the programmed hours and alarming if an unauthorized entry or exit has occurred. The ID Exit Panel identifies each transmitter by displaying a unique 4 digit code.

When connected to the ID Nurse Station Console, the transmitter's information and location is displayed on a forty-eight (48) character display.

Four dry contact outputs can be used to control elevators, nurse station annunciators, pagers and other equipment.

Features

- Displays Door Status
- Displays Transmitter ID Code
- Four Dry Contact Outputs
- Battery Back-up
- Fire Alarm Interface
- Perimeter Alarm Function
- Anti-tailgate Feature
- Elevator Lock Out
- Built in Clock
- External Keypad Connector
- Push Button or Key switch Input
- User Programmable Escort Times
- Fully Keypad Programmable
- Magnetic Lock Controller

Material Included

Power Supply	1
Exit Panel	1
Rechargeable Nickel-hydrde Battery	1

Specifications

Construction	Painted Steel Faceplate (20 Ga. or .036")
Mounting	Flush or Surface Mount
Connections	Screw-down connectors
Electrical Rating	12 VDC, 500mA Wall Adapter
Interfaces	Model 135 Door Receiver, Model 418 Zone Receiver, ID Nurse Station, ID Expander, Magnetic Lock, Remote Keypad
Relay Specifications	35 Volts, 1 amp max.

(All unit dimensions are approximate.)

Prepackaged Kit

ID Single or Double Door Kit (13.56MHz)	980
