

# ID Exit Expander

## Part # A02280901

(All unit dimensions are approximate.)

### Description

The A02280901 ID Exit Expander provides the ability to add up to eight ID exits and eight non-ID exits to one input port on the ID Nurse Station Console. With proper programming and wiring, the ID exit systems report their status to the ID Exit Expander. The ID Exit Expander then passes this information to the ID Nurse Station Console. Up to four ID Exit Expanders can be interfaced with one ID Nurse Station Console allowing up to thirty-six (36) ID exits and forty (40) non-ID exits to communicate to one Nurse Station Console.

### Features

- Provides system expansion for up to eight additional ID exits and eight non-ID exits
- Can be used with up to three more ID Exit Expanders to provide 36 ID exits and 40 non-ID exits
- Supervised communication to ID Nurse Station Console
- Painted Steel Faceplate
- Battery Backup
- Yellow Data LED

### Specifications
