

# ID Nurse Station Console

## Part # A02280903

### Description

The A02280903 ID Nurse Station Console monitors transmitter activity occurring at exit locations equipped with the ID System. When a transmitter approaches an exit equipped with the ID System, the ID Nurse Station Console will display the transmitter information and location. The ID Nurse Console has eight dry contact inputs, and eight RS232 Inputs. The dry contact inputs can be used to interface with the Advantage 500DE Access Control System, security systems, and Model#418 Zone Receivers to alert for cutband and emergency response, etc. The ID Nurse Console's non-volatile memory can store up to 36 ID exit location names, 40 Non-ID exit location names or Zone Receiver Names, and 250 transmitter ID's.

### Features

- Identifies Transmitter by ID and Location
- Identifies Location of Alarm by Name
- Painted Steel Faceplate
- Fully Keypad Programmable
- Eight (8) Dry Contact Inputs
- Non-Volatile Memory
- Battery Backup
- Extra Bright Vacuum Fluorescent Display
- Selectable RS232 Output
- Supervised System
- Displays System Status at All Times
- Built-in Audible Alarm
- Adjustable Volume Control
- Eight (8) RS232 Inputs
- Easy Screw Terminal Connections

### Specifications
