

ID Remote Console

Part # A01280903

Description

The A01280903 ID Remote Console remotely displays all activity being displayed by the ID System Console. Three (3) RS232 Output ports are available to interface with Pagers, Event Recorders, and other ID Remote Consoles. When a transmitter approaches an exit equipped with the ID System, the ID Remote Console will display the transmitter information and location. The RS232 input port is used to interface with the ID Nurse Station Console.

Features

- Displays Transmitter Information and Location
- Displays Location of Alarm by Name
- Painted Steel Faceplate
- Battery Backup
- Extra Bright Vacuum Fluorescent Display
- Three (3) Simultaneous RS232 Outputs
- Displays System Status at All Times
- Built-in Audible Alarm
- Adjustable Volume Control
- Easy Screw Terminal Connections
