

MatchMAKER I.D.

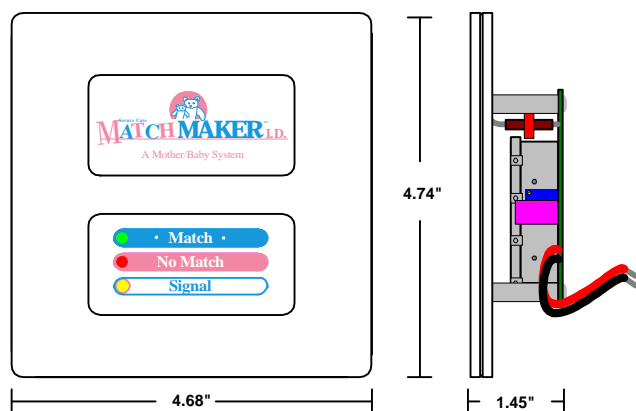

Infant Security System

(A03290910)

Flush Mount Kit

(A03290911)

Surface Mount Kit

Description

MatchMAKER ID is a wireless security product designed to aid hospital staff in matching an infant to its mother.

When an infant is brought to its mother's room, MatchMAKER ID displays a green LED indicating a proper match. If there is not a match, a red LED will light.

MatchMAKER ID can easily track multiple births as well as rooms with multiple beds.

This system utilizes the same transmitter as the KinderGUARD ID Infant Security System.

Features

- Programmed ID is stored in non-volatile memory
- Uses standard KinderGUARD ID Transmitter
- Can be used in conjunction with KinderGUARD ID system or independently
- Multiple births handled by multiple transmitters with same ID code
- Controlled detection range of 6 in. to 5 ft. (+/- 1 ft.)
- Easy user interface: Green LED = Match, Red LED = No Match
- Uses central power supply with a battery backup

Specifications

Construction	Plastic Faceplate
